Safe Harbor Statement

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the current plans and expectations of future events of Comfort Systems USA, Inc. and involve risks and uncertainties that could cause actual future activities and results of operations to be materially different from those set forth in the forward-looking statements. Important factors that could cause actual results to differ include, among others, the use of incorrect estimates for bidding a fixed-price contract, undertaking contractual commitments that exceed our labor resources, failing to perform contractual obligations efficiently enough to maintain profitability, national or regional weakness in construction activity and economic conditions, financial difficulties affecting projects, vendors, customers, or subcontractors, our backlog failing to translate into actual revenue or profits, difficulty in obtaining or increased costs associated with bonding and insurance, impairment to goodwill, errors in our percentage-of-completion method of accounting, the result of competition in our markets, our decentralized management structure, shortages of labor and specialty building materials, retention of key management, seasonal fluctuations in the demand for HVAC systems, the imposition of past and future liability from environmental, safety, and health regulations including the inherent risk associated with selfinsurance, adverse litigation results and other risks detailed in our reports filed with the Securities and Exchange Commission. A further list and description of these risks, uncertainties and other factors are discussed under "Item 1A. Company Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2010." These forward-looking statements speak only as of the date of this filing. Comfort Systems USA, Inc. expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any change in events, developments, conditions or circumstances on which any such statement is based.

| Adjusted EBITDA | \$ | 13,934 | \$ | 15,453 | \$ | 42,693 | \$ | 69,959 | |

Note 1: We define adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") as net income, excluding discontinued operations, income taxes, other income, interest expense, net, gain on sale of assets, goodwill impairment and depreciation and amortization. Other companies may define Adjusted EBITDA differently. Adjusted EBITDA is presented because it is a financial measure that is frequently requested by third parties. However, Adjusted EBITDA is not considered under generally accepted accounting principles as a primary measure of an entity's financial results, and accordingly, Adjusted EBITDA should not be considered an alternative to operating income, net income, or cash flows as determined under generally accepted accounting principles and as reported us.

Appendix II – Supplemental Non-GAAP Information (\$ in thousands except per share amounts) (Unaudited)

| | Three Months Ended December 31, | | | Year Ended December 31, | | | | | |
|---|---------------------------------|-------|-----------|----------------------------|------|--------|----|--------|--|
| | 2010 | | 2010 2009 | | 2010 | | | 2009 | |

| Diluted earnings per share from continuing operations excluding goodwill impairment | \$ | 0.17 | \$ | 0.20 | \$ | 0.46 | \$ | 0.90 | |

Note: Operating results from continuing operations excluding goodwill impairment is presented because we believe it reflects the results of our core ongoing operations, and because we believe it is responsive to frequent questions we receive from third parties. However, this measure is not considered a primary measure of any entity's financial results under generally accepted accounting principles, and accordingly, this amount should not be considered an alternative to operating results as determined by generally accepted accounting principles and as reported by us.
